

# LANGDON MILLS SOLAR

## About the Project

- Will generate enough clean energy to power 30,000 homes.
- Expected to be operational in 2026.
- Proposed on approx. 2,000 acres of privately-owned land.
- Panel height and design will limit Project visibility to neighbors and nearby roads.
- Langdon Mills Solar will maintain and protect the leased land during the life of the Project, and after decommissioning the land reverts to unencumbered owner control.
- Over \$224 million estimated total Project investment with more than \$28 million reinvested back into state and local communities.
- Project helps meet the growing demand for clean, renewable energy sources in Wisconsin.
- Located in Columbia County, in the Townships of Springvale and Courtland.
